Coronavirus Cases

21/05/2020

Summary

COVID-19 cases near you widget operates on postcode search and gives you following information:

- Confirmed coronavirus cases in your area
- Total UK coronavirus cases
- Daily UK coronavirus cases
- Total UK coronavirus deaths

You can also go to In Your Area website to see more information and news based on your postcode, by clicking on MORE INFO INYOURAREA button at the bottom of the widget.

Note: Once downloaded, please extract the downloaded .zip file to access the widget .zip file, and a README containing more information on the widget.

Tested (front-end)

Browser	Test Result	Notes
Internet Explorer 11	FAIL	Does not show on FE - Console error. Looks like it's out of our control.
Microsoft Edge	FAIL	Does not show on FE - Console error. Looks like it's out of our control.
Chrome	PASS	
Firefox	PASS	
Safari	PASS	
Mobile devices	PASS	Nexus 5, iPhone 5 SE and iPhone X
Tablet devices	FAIL	Nexus 7 and iPad - Unable to interact with the widget in portrait view.

Testing completed - 21/05/2020

Note: The widget has been tested on both photon and classic CMS templates. The one version of the widget works on both sets of templates.

Tested (control center)

Browser	Test Result	Notes
Internet Explorer 11	FAIL	No preview when adding the widget to the CC.
Microsoft Edge	FAIL	No preview when adding the widget to the CC.
Chrome	PASS	
Firefox	PASS	
Safari	PASS	

Testing completed - 21/05/2020

Installation/Implementation

1. Download the widget from the library (zip file)
2. Upload the widget to the control center using the [Widget Manager](#)
3. Fill in the required details for the widget. **Note: 'Signed in users only' must be set to 'No'**
4. The widget can then be added to a homepage and used as per requirement

Guide to adding the widget

Here is a short guide to adding the widget to a homepage

1. Once the widget has been uploaded to the widget manager, it can be added to a homepage by dragging and dropping the widget in a row.

The screenshot displays the widget manager interface. On the left, there are three panels: 'Rows' with a dropdown set to '1', 'Settings' with various icons, and 'Width' set to '100%'. Below these is a 'Widgets' list containing: 'Canterbury directory widget', 'Content', 'Coronavirus cases widget', 'Covid test', and 'COVID-19 Special Announcement Widget version 2'. The main area shows 'Row 1' containing a 'Coronavirus cases widget'. The widget displays the following information:

- COVID-19 cases near WS137LS** (with an 'Edit' link)
- *data as of 20/05/2020 - Source: [PHE](#) & [DHSC](#)
- Confirmed cases in Lichfield**
- 278**
- Summary table:

Total UK cases	Daily UK cases	Total UK deaths
248,293	2,472	35,704
- Sponsored banner for **UK Meds**: 'Get face masks, hand sanitisers & PPE delivered direct. [Visit UK Meds](#)'
- Alerts section: 'Get alerts by email for WS137LS' with a checkbox and a 'MORE INFO ON INYOURAREA' button.
- Footer: 'Powered By InYourArea' and social media icons.

At the bottom of the interface, a status bar indicates 'You are editing "test2"'. The widget title 'Coronavirus cases widget' is visible at the top of the widget frame.

2. Save the Homepage and submit for approval process
